

HARSHIL HK

Software Engineer & Startup Founder | Building AI-Powered Developer Tools | Full-Stack · Cloud · DevOps

📞 6361295142 ✉️ harshilhk052003@gmail.com 🔗 LinkedIn 📍 Bengaluru, India

SKILLS

Programming Languages :	C++, Java, Python, TypeScript, Rust
Frameworks & Libraries :	Flask, Vite, SvelteKit, Spring, Django, Vue, React Router DOM, JWT (python-jose, PyJWT), Authlib
Tools & Platforms :	Jenkins, Kubernetes, Docker, GitLab, GitHub, Git
Databases :	PostgreSQL, MySQL, Redis, AWS cloud, GCP
Soft Skills :	Communication, Teamwork, Problem Solving, Creativity, Critical Thinking, Time Management, Adaptability
Languages :	English, Hindi, Kannada

PROJECTS

Darkpearl 🌐 Website <i>Founding Engineer</i>	Jul 2024 - Mar 2025
- Built darkpearl, an open-source AI development platform for rapid CRUD app creation through natural language. - Architected a full-stack solution using SvelteKit, Pocketbase, and Vercel AI SDK with real-time collaboration. - Implemented domain-based multi-tenancy to host unlimited applications on a single server and designed a CLI tool for zero-config deployment across Windows, macOS, and Linux. <i>Technologies / Tools Used : React, Svelte, PocketBase, PrismaDB, Microservices, Product dev & Management</i>	
FluxTest 🌐 Website <i>Founding Engineer</i>	Jan 2024 - Jun 2024
Architected a multi-modal API testing platform using Spring Boot microservices, REST APIs, and Feign client integration, supporting 9 distinct testing types with circuit breaker fault tolerance and Spring Data JPA for persistent test result management. Engineered an AI-driven test generation and analysis engine deployed on cloud infrastructure, achieving 9,000+ test executions across 15 beta teams with automated reporting, real-time test orchestration, and a unified dashboard eliminating multi-tool dependency. <i>Technologies / Tools Used : Python, React, PostgreSQL, Nginx, Linux, Product dev and Management, Node.js, Express</i>	

WORK EXPERIENCE

Associate Cloud Development Engineer Full-time <i>Bristlecone India</i>	Aug 2025 - Present <i>Bengaluru India</i>
Developed and maintained AWS Lambda functions for production-grade shipment tracking systems, diagnosing failures and deploying fixes via Jenkins CI/CD pipelines. Analyzed and resolved production tickets, including root cause investigation of data mismatch issues (e.g., Estes tracking ID format conflicts in the NEO system) with cross-team stakeholder communication. Upgraded QA environments to higher versions and replicated production Lambda configurations to QA for consistent and reliable testing parity. Achieved execution speed 20% faster than peers. <i>Technologies / Skills Used : AWS, Python, Java, Node, PostgreSQL, React</i>	
Founding Engineer & SDE Intern Self-employed <i>Evolune EdgeTech</i>	Jan 2024 - Mar 2025 <i>Bengaluru India</i>
- Architected and built Evo-TFX, an AI-powered API testing platform consolidating 9 testing types into a single workflow, eliminating tool-switching overhead for engineering teams and achieving 9,000+ test executions across 15 beta teams with a 4.4/5 user rating. - Developed Spring Boot microservices for currency conversion with Feign client integration, Spring Data JPA for persistence, circuit breaker patterns for fault tolerance, and clean modular REST architecture, also increased the execution by 50%. - Handled end-to-end feature development and deployment on production servers, contributing across backend services and platform infrastructure as a core founding team member. <i>Technologies / Skills Used : React, Python, Docker, Linux, PostgreSQL, Svelte, FastAPI, Microservices</i>	

EDUCATION

Dayananda Sagar Academy of Technology and Management <i>BE in Information Science and Engineering</i>	Dec 2021 - Jul 2025 <i>CGPA : 8.50/10</i>
- Represented College at Startup Mahakumbh 2024; attended PM's speech at Bharat Madapam, New Delhi. - Organized Hackathon events; co-founded Innovisions Club. - Won multiple hackathons, including Cascading Craft. - Awarded Gold Medal from Karnataka state in IT software solution for Business domain; represented at IndiaSkill2024 - New Delhi. - Honored with Gold Medal at Vidhana Soudha, Bangalore by the Ministry.	

PROFESSIONAL SUMMARY

Software Engineer and startup founder with hands-on experience in **full-stack development**, **cloud infrastructure**, and **AI-powered applications**. Co-founded Evolune EdgeTech, developing Evo-TFX — an **AI-driven API testing platform** with 15+ beta teams and 9,000+ tests executed. Proven ability to ship real products in both startup and enterprise environments.
